INDEPENDENT AUDITOR'S REPORT

Board of Directors
Kaufman County Fresh Water Supply District No. 1-B
Kaufman County, Texas

We have audited the accompanying financial statements of the governmental activities and each major fund of Kaufman County Fresh Water Supply District No. 1-B (the "District"), as of and for the year ended March 31, 2017, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of the District as of March 31, 2017, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis and the Schedule of Revenues, Expenditures, and Changes in Fund Balance – Budget and Actual – General Fund be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the basic financial statements that collectively comprise the District's basic financial statements. The supplementary information required by the Texas Commission on Environmental Quality as published in the *Water District Financial Management Guide* is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The supplementary information, excluding that portion marked "Unaudited" on which we express no opinion or provide any assurance, has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

**KAUFMAN COUNTY FRESH WATER SUPPLY DISTRICT NO. 1-B
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE YEAR ENDED MARCH 31, 2017**

Management's discussion and analysis of Kaufman County Fresh Water Supply District No. 1-B's (the "District") financial performance provides an overview of the District's financial activities for the fiscal year ended March 31, 2017. Please read it in conjunction with the District's financial statements.

USING THIS ANNUAL REPORT

This annual report consists of a series of financial statements. The basic financial statements include: (1) combined fund financial statements and government-wide financial statements and (2) notes to the financial statements. The combined fund financial statements and government-wide financial statements combine both: (1) the Statement of Net Position and Governmental Funds Balance Sheet and (2) the Statement of Activities and Governmental Funds Statement of Revenues, Expenditures and Changes in Fund Balances. This report also includes required and other supplementary information in addition to the basic financial statements.

GOVERNMENT-WIDE FINANCIAL STATEMENTS

The District's annual report includes two financial statements combining the government-wide financial statements and the fund financial statements. The government-wide portion of these statements provides both long-term and short-term information about the District's overall status. Financial reporting at this level uses a perspective similar to that found in the private sector with its basis in full accrual accounting and elimination or reclassification of internal activities.

The first of the government-wide statements is the Statement of Net Position. The Statement of Net Position is the District-wide statement of its financial position presenting information that includes all of the District's assets, liabilities and deferred inflows and outflows of resources, with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District as a whole is improving or deteriorating. Evaluation of the overall health of the District would extend to other non-financial factors.

The government-wide portion of the Statement of Activities reports how the District's net position changed during the current fiscal year. All current year revenues and expenses are included regardless of when cash is received or paid.

FUND FINANCIAL STATEMENTS

The combined statements also include fund financial statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District has two governmental fund types. The General Fund accounts for resources not accounted for in another fund, customer service revenues, costs and general expenditures. The Debt Service Fund accounts for ad valorem taxes and financial

FUND FINANCIAL STATEMENTS (Continued)

resources restricted, committed or assigned for servicing bond debt and the cost of assessing and collecting taxes.

Governmental funds are reported in each of the financial statements. The focus in the fund statements provides a distinctive view of the District's governmental funds. These statements report short-term fiscal accountability focusing on the use of spendable resources and balances of spendable resources available at the end of the year. They are useful in evaluating annual financing requirements of the District and the commitment of spendable resources for the near-term.

Since the government-wide focus includes the long-term view, comparisons between these two perspectives may provide insight into the long-term impact of short-term financing decisions. The adjustments columns, the Reconciliation of the Governmental Funds Balance Sheet to the Statement of Net Position and the Reconciliation of the Governmental Funds Statement of Revenues, Expenditures and Changes in Fund Balances to the Statement of Activities explain the differences between the two presentations and assist in understanding the differences between these two perspectives.

NOTES TO THE FINANCIAL STATEMENTS

The accompanying notes to the financial statements provide information essential to a full understanding of the government-wide and fund financial statements. The notes to the financial statements can be found in this report.

OTHER INFORMATION

In addition to the financial statements and accompanying notes, this report also presents certain required supplementary information ("RSI"). A budgetary comparison schedule is included as RSI for the General Fund.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

Net position may serve over time as a useful indicator of the District's financial position. In the case of the District, liabilities and deferred inflows of revenues exceeded assets and deferred outflows of resources by \$805,447 as of March 31, 2017.

A portion of the District's net position reflects its net investment in capital assets (water, wastewater, drainage and road facilities, less any debt used to acquire those assets that is still outstanding). The District uses a portion of these assets to provide water and wastewater services.

The following is a comparative analysis of government-wide changes in net position:

MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE YEAR ENDED MARCH 31, 2017**

FINANCIAL ANALYSIS OF THE DISTRICT'S GOVERNMENTAL FUNDS

The District's combined fund balances as of March 31, 2017, were \$554,813, a decrease of \$107,044 from the prior year.

The General Fund fund balance increased by \$33,725, primarily due to revenue from charges for services exceeding operating expenditures.

The Debt Service Fund fund balance decreased by \$140,769, primarily due to the structure of the District's outstanding debt.

GENERAL FUND BUDGETARY HIGHLIGHTS

The Board of Directors did not amend the budget during the current fiscal. Actual revenues were \$64,218 less than budgeted revenues. Actual expenditures were \$79,502 less than budgeted expenditures.

MARCH 31, 2017

NOTE 1. CREATION OF DISTRICT

On January 8, 2001, the Kaufman County Commissioners Court approved the order creating Kaufman County Fresh Water Supply District No. 1 (District No. 1), and voters of District No. 1 confirmed the creation at an election held on January 20, 2001. In another election held on May 5, 2001, the voters approved District No. 1's assumption of the rights, authority, privileges and functions of a road district and authorized District No. 1 to purchase, construct, acquire, own, operate, repair, improve and extend a sanitary sewer system. On May 10, 2001, following a hearing, the governing board of District No. 1 approved the conversion of the District to a water control and improvement district operating under Chapter 51 of the Texas Water Code and specifically reserved certain rights under Sections 53.029, 53.030 through 53.034, 53.040 through 53.041, 53.112, 53.121, and 53.125 of the Texas Water Code. Certain actions of the governing board of District No. 1 were validated by Section 42 of Senate Bill 1444, Acts of the 77th Legislature of the State of Texas, Regular Session, 2001.

At an election held within the boundaries of District No. 1 on August 11, 2001, voters approved the division of District No. 1 into two new districts: Kaufman County Fresh Water Supply District No. 1-A (District No. 1-A) and Kaufman County Fresh Water Supply District No. 1-B (the "District"). Pursuant to the provisions of Chapters 49, 51 and, for limited purposes, 53 of the Texas Water Code, the District is empowered to purchase, operate and maintain all facilities, plants and improvements necessary to provide water, sanitary sewer service, storm sewer drainage, irrigation, roads, solid waste collection and disposal, including recycling, construction of parks and recreational facilities for the residents of the District. The District also has the power to acquire, construct, operate and maintain road facilities and is empowered to contract for or employ its own peace officers with powers to make arrests and, subject to certain regulatory and voter approvals, to contract for fire protection services or establish, operate and maintain a fire department to perform all fire-fighting activities within the District. The District held its first meeting on October 2, 2001, and sold its first series of bonds on December 5, 2004.

NOTE 2. SIGNIFICANT ACCOUNTING POLICIES

The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America as promulgated by the Governmental Accounting Standards Board ("GASB"). In addition, the accounting records of the District are maintained generally in accordance with the *Water District Financial Management Guide* published by the Texas Commission on Environmental Quality (the "Commission").

The District is a political subdivision of the State of Texas governed by an elected board. GASB has established the criteria for determining whether or not an entity is a primary government or a component unit of a primary government. The primary criteria are that it has a separately elected governing body, it is legally separate, and it is fiscally independent of other state and local governments. Under these criteria, the District is considered a primary government and is not a

component unit of any other government. Additionally, no other entities meet the criteria for inclusion in the District's financial statement as component units.

The District is a participant in the joint facilities under the oversight of Kaufman County Fresh Water Supply District No. 1-A. See Note 8.

Financial Statement Presentation

These financial statements have been prepared in accordance with GASB Codification of Governmental Accounting and Financial Reporting Standards Part II, Financial Reporting.

GASB Codification sets forth standards for external financial reporting for all state and local government entities, which include a requirement for a Statement of Net Position and a Statement of Activities. It requires the classification of net position into three components: Net Investment in Capital Assets; Restricted; and Unrestricted. These classifications are defined as follows:

- * Net Investment in Capital Assets – This component of net position consists of capital assets, including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvements of those assets.
- * Restricted Net Position – This component of net position consists of external constraints placed on the use of assets imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulation of other governments or constraints imposed by law through constitutional provisions or enabling legislation.
- * Unrestricted Net Position – This component of net position consists of assets that do not meet the definition of Restricted or Net Investment in Capital Assets.

When both restricted and unrestricted resources are available for use, generally it is the District's policy to use restricted resources first.

Government-Wide Financial Statements

The Statement of Net Position and the Statement of Activities display information about the District as a whole. The District's Statement of Net Position and Statement of Activities are combined with the governmental fund financial statements. The District is viewed as a special-purpose government and has the option of combining these financial statements.

NOTE 2. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Government-Wide Financial Statements (Continued)

The Statement of Net Position is reported by adjusting the governmental fund types to report on the full accrual basis, economic resource basis, which recognizes all long-term assets and receivables as well as long-term debt and obligations. Any amounts recorded due to and due from other funds are eliminated in the Statement of Net Position.

The Statement of Activities is reported by adjusting the governmental fund types to report only items related to current year revenues and expenditures. Items such as capital outlay are allocated over their estimated useful lives as depreciation expense. Internal activities between governmental funds, if any, are eliminated by adjustment to obtain net total revenue and expense of the government-wide Statement of Activities.

Fund Financial Statements

As discussed above, the District's fund financial statements are combined with the government-wide statements. The fund statements include a Balance Sheet and Statement of Revenues, Expenditures and Changes in Fund Balances.

Governmental Funds

The District has two governmental funds and considers each to be a major fund.

General Fund - To account for resources not required to be accounted for in another fund, customer service revenues, costs and general expenditures.

Debt Service Fund - To account for ad valorem taxes and financial resources restricted, committed or assigned for servicing bond debt and the cost of assessing and collecting taxes.

Basis of Accounting

The District uses the modified accrual basis of accounting for governmental fund types. The modified accrual basis of accounting recognizes revenues when both "measurable and available." Measurable means the amount can be determined. Available means collectable within the current period or soon enough thereafter to pay current liabilities. The District considers revenues reported in the governmental funds to be available if they are collectable within 60 days after year end. Also, under the modified accrual basis of accounting, expenditures are recorded when the related fund liability is incurred, except for principal and interest on long-term debt, which are recognized as expenditures when payment is due.

Property taxes considered available by the District and included in revenue include the 2015 tax levy collections during the period October 1, 2015, to March 31, 2017, and taxes collected from April 1, 2016, to March 31, 2017, for the 2014 and prior tax levies. The 2016 tax levy has been fully deferred to meet the June 1 and December 1 debt service requirements.

NOTE 2. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Basis of Accounting (Continued)

Amounts transferred from one fund to another fund are reported as other financing sources or uses. Loans by one fund to another fund and amounts paid by one fund for another fund are reported as interfund receivables and payables in the Governmental Funds Balance Sheet if there is intent to repay the amount and if the debtor fund has the ability to repay the advance on a timely basis. As of March 31, 2017, the Debt Service Fund owed the General Fund \$12,129 for the over transfer of debt service tax collections.

Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets, are reported in the government-wide Statement of Net Position. All capital assets are valued at historical cost or estimated historical cost if actual historical cost is not available. Donated assets are valued at their fair market value on the date donated. Repairs and maintenance are recorded as expenditures in the governmental fund incurred and as an expense in the government-wide Statement of Activities. Capital asset additions, improvements and preservation costs that extend the life of an asset are capitalized and depreciated over the estimated useful life of the asset. Interest costs, including developer interest, engineering fees and certain other costs are capitalized as part of the asset.

Assets are capitalized, including infrastructure assets, if they have an original cost greater than \$10,000 and a useful life over two years. Depreciation is calculated on each class of depreciable property using the straight-line method of depreciation. Estimated useful lives are as follows:

	Years
Buildings	40
Water System	10-45
Wastewater System	10-45
Drainage System	10-45
Road System	10-50
All Other Equipment	3-20

Budgeting

In compliance with governmental accounting principles, the Board of Directors annually adopts an unappropriated budget for the General Fund. The budget was not amended during the current fiscal year.

NOTE 2. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Pensions

The District has not established a pension plan as the District does not have employees. The Internal Revenue Service has determined that fees of office received by Directors are considered to be wages subject to federal income tax withholding for payroll purposes only.

Measurement Focus

Measurement focus is a term used to describe which transactions are recognized within the various financial statements. In the government-wide Statement of Net Position and Statement of Activities, the governmental activities are presented using the economic resources measurement focus. The accounting objectives of this measurement focus are the determination of operating income, changes in net position, financial position, and cash flows. All assets and liabilities associated with the activities are reported. Fund equity is classified as net position.

Governmental fund types are accounted for on a spending or financial flow measurement focus. Accordingly, only current assets and current liabilities are included on the Balance Sheet, and the reported fund balances provide an indication of available spendable or appropriable resources. Operating statements of governmental fund types report increases and decreases in available spendable resources. Fund balances in governmental funds are classified using the following hierarchy:

Nonspendable: amounts that cannot be spent either because they are in nonspendable form or because they are legally or contractually required to be maintained intact.

Restricted: amounts that can be spent only for specific purposes because of constitutional provisions, or enabling legislation, or because of constraints that are imposed externally.

Committed: amounts that can be spent only for purposes determined by a formal action of the Board of Directors. The Board is the highest level of decision-making authority for the District. This action must be made no later than the end of the fiscal year. Commitments may be established, modified, or rescinded only through ordinances or resolutions approved by the Board. The District does not have any committed fund balances.

Assigned: amounts that do not meet the criteria to be classified as restricted or committed, but that are intended to be used for specific purposes. The District has not adopted a formal policy regarding the assignment of fund balances. The District has assigned \$159,570 of the General Fund fund balance towards the 2018 budget.

Unassigned: all other spendable amounts in the General Fund.

NOTE 2. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Measurement Focus (Continued)

When expenditures are incurred for which restricted, committed, assigned or unassigned fund balances are available, the District considers amounts to have been spent first out of restricted funds, then committed funds, then assigned funds, and finally unassigned funds.

Accounting Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amount of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures during the reporting period. Actual results could differ from those estimates.

	<u>\$ 6,734,743</u>	<u>\$ 2,990,633</u>	<u>\$ 9,725,376</u>

The bonds of the District are payable from the proceeds of an ad valorem tax levied upon all property subject to taxation within the District, limited to \$0.70 per \$100 of assessed valuation.

During the year ended March 31, 2017, the District levied an ad valorem debt service tax rate of \$0.6414 per \$100 of assessed valuation, which resulted in a tax levy of \$639,998 on the adjusted taxable valuation of \$99,752,719 for the 2016 tax year. The bond order requires the District to levy and collect an ad valorem debt service tax within the legally voted limitation of \$0.70 per \$100 assessed valuation to pay interest and principal on bonds when due and the cost of assessing and collecting taxes. See Note 7 for the maintenance tax levy.

The District's tax calendar is as follows:

- Levy Date - October 1, as soon thereafter as practicable.
- Lien Date - January 1.
- Due Date - Upon receipt but not later than January 31.
- Delinquent Date - February 1, at which time the taxpayer is liable for penalty and interest.

NOTE 4. SIGNIFICANT BOND ORDER AND LEGAL REQUIREMENTS

- A. The bond order states that the District will provide continuing disclosure of certain financial information and operating data to each nationally recognized municipal securities information repository and the state information depository. This information, along with the audited annual financial statements, is to be provided within six months after the end of each fiscal year.
- B. In accordance with the Series 2004 Bond Order, \$100,000 of the bond proceeds were deposited into the Collection Contingency Fund. The bond order requires the District to maintain a balance of \$100,000 in this fund. The money in this fund may be released when the District can demonstrate that an ad valorem tax rate of \$0.56 or less per \$100 assessed valuation is sufficient to cover the maximum annual debt service for two consecutive fiscal years and with prior written authorization of the insurer of the bonds. As of March 31, 2017, the Collection Contingency Fund had a balance of \$100,364.

NOTE 5. DEPOSITS AND INVESTMENTS

Deposits

Custodial credit risk is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover deposits or will not be able to recover collateral securities that are in the possession of an outside party. The District's deposit policy for custodial credit risk requires compliance with the provisions of Texas statutes.

Texas statutes require that any cash balance in any fund shall, to the extent not insured by the Federal Deposit Insurance Corporation or its successor, be continuously secured by a valid pledge to the District of securities eligible under the laws of Texas to secure the funds of the District, having an aggregate market value, including accrued interest, at all times equal to the uninsured cash balance in the fund to which such securities are pledged. At fiscal year end, the carrying amount of the District's deposits was \$1,190,657 and the bank balance was \$1,311,851. Of the bank balance, \$650,000 was covered by federal depository insurance and the balance was covered by collateral pledged in the name of the District and held in a third party depository.

The carrying values of the deposits are included in the Governmental Funds Balance Sheet and the Statement of Net Position at March 31, 2017, as listed below:

Investments

Under Texas law, the District is required to invest its funds under written investment policies that primarily emphasize safety of principal and liquidity and that address investment diversification, yield, maturity, and the quality and capability of investment management, and all District funds must be invested in accordance with the following investment objectives: understanding the suitability of the investment to the District’s financial requirements, first; preservation and safety of principal, second; liquidity, third; marketability of the investments if the need arises to liquidate the investment before maturity, fourth; diversification of the investment portfolio, fifth; and yield, sixth. The District’s investments must be made “with judgment and care, under prevailing circumstances, that a person of prudence, discretion, and intelligence would exercise in the management of the person’s own affairs, not for speculation, but for investment, considering the probable safety of capital and the probable income to be derived.” No person may invest District funds without express written authority from the Board of Directors.

Texas statutes include specifications for and limitations applicable to the District and its authority to purchase investments as defined in the Public Funds Investment Act. Authorized investments are summarized as follows: (1) obligations of the United States or its agencies and instrumentalities, (2) direct obligations of the State of Texas or its agencies and instrumentalities, (3) certain collateralized mortgage obligations, (4) other obligations, the principal of and interest on which are unconditionally guaranteed or insured by the State of Texas or the United States or its agencies and instrumentalities, including obligations that are fully guaranteed or insured by the Federal Deposit Insurance Corporation or by the explicit full faith and credit of the United States, (5) certain A rated or higher obligations of states, agencies, counties, cities, and other political subdivisions of any state, (6) bonds issued, assumed or guaranteed by the State of Israel, (7) insured or collateralized certificates of deposit, (8) certain fully collateralized repurchase

agreements secured by delivery, (9) certain bankers' acceptances with limitations, (10) commercial paper rated A-1 or P-1 or higher and a maturity of 270 days or less, (11) no-load money market mutual funds and no-load mutual funds with limitations, (12) certain guaranteed investment contracts, (13) certain qualified governmental investment pools and (14) a qualified securities lending program.

As of March 31, 2017, the District had the following investments and maturities:

Fund and Investment Type	Fair Value	Maturities in Years			
		Less Than 1	1-5	6-10	More Than 10
<u>GENERAL FUND</u>					
Certificates of Deposit	\$ 80,922	\$ 80,922	\$	\$	\$

TOTAL INVESTMENTS	<u>\$ 412,997</u>	<u>\$ 312,997</u>	<u>\$ 100,000</u>	<u>\$ - 0 -</u>	<u>\$ - 0 -</u>

Credit risk is the risk that the issuer or other counterparty to an investment will not fulfill its obligations. At March 31, 2017, the District's investment in the money market mutual fund was rated AA- by Standard and Poor's. The District also manages credit risk by typically investing in certificates of deposit with balances below FDIC coverage.

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The District considers the investment in the money market mutual fund to have a maturity of less than one year due to the fact the share position can usually be redeemed each day at the discretion of the District, unless there has been a significant change in value. The District also manages interest rate risk by normally investing in certificates of deposit with maturities of less than one year.

Restrictions

All cash and investments of the Debt Service Fund are restricted for the payment of debt service and the cost of assessing and collecting taxes.

NOTE 7. MAINTENANCE TAX

The voters of the District have not approved the levy and collection of a maintenance tax on the taxable property within the District.

NOTE 8. WATER AND WASTEWATER OPERATING AGREEMENT AND JOINT UTILITY AND WHOLESALE ALLOCATION AGREEMENT

On March 29, 2004, and as amended on July 7, 2004, and August 30, 2004, the District entered into a Water and Wastewater Agreement with District No. 1-A, Kaufman County Fresh Water Supply District No. 1-C (District No. 1-C) and Kaufman County Development District No. 1 (KCDD). Such agreement was by its terms effective June 1, 2004. KCDD had been operating a water treatment, production and distribution system and wastewater collection and treatment facility providing services to the area within the District, District No. 1-A and District No. 1-C.

NOTE 8. WATER AND WASTEWATER OPERATING AGREEMENT AND JOINT UTILITY AND WHOLESALE ALLOCATION AGREEMENT (Continued)

KCDD also had been collecting fees and charges for such services and paying the costs of operating the system. Under the terms of the Water and Wastewater Agreement, the operations of the system were transferred to District No. 1-A. In accordance with the amendments, District No. 1-A will operate the central water and wastewater facilities and each district will now collect the revenues from the customers in its own service area.

As of August 1, 2008 and amended on October 28, 2010, the District entered into the Joint Utility and Wholesale Allocation Agreement (Joint Agreement) with District No. 1-A, District No. 1-C and Kaufman County Fresh Water Supply District No. 1-D (District No. 1-D). This Joint Agreement sets forth the procedures under which District No. 1-A will bill the other districts for their respective shares of administration, maintenance, and operations costs relating to the water supply facilities and wastewater treatment plant operated by District No. 1-A. Each district will pay its share of administration fixed costs and variable costs based upon the procedures and allocation shares outlined in the agreement. The Joint Agreement also allocates among the districts the cost of wholesale water purchased by District No. 1-A from the City of Forney for distribution to District No. 1-B, District No. 1-C and District No. 1-D. The Joint Agreement provides that in the event of conflicting provisions relating to cost-sharing, the provisions contained in the Joint Agreement will prevail over those of any prior cost-sharing arrangement, agreement or understanding among these districts. During the current fiscal year, the District terminated its participation in the first amendment to the Joint Agreement.

During the current fiscal year, the District recorded \$396,825 for purchased water and wastewater service. The following summary audited financial data on the joint water and wastewater treatment facilities is presented for the year ended March 31, 2017.

NOTE 9. RISK MANAGEMENT

The District is exposed to various risks of loss related to torts, theft of, damage to and destruction of assets, errors and omissions, and natural disasters for which the District carries commercial insurance. There have been no significant changes in coverage from the prior years and settlements have not exceeded coverage in the past three years.

NOTE 10. AGREEMENTS FOR PATROL SERVICES AND TRAFFIC ENFORCEMENT

In September of 2016, the District, Kaufman County Fresh Water Supply District No. 1-C and Kaufman County (the "County") entered into a Joint Interlocal Cooperation Agreement for Full Time Law Enforcement Patrol Services. Under this Agreement, the County agrees to provide full-time (40 hours per week) law enforcement patrol services within the Districts, and each District is responsible for its pro-rata share of the costs of salary/benefits, equipment and a vehicle necessary to support one full-time patrol unit. The term of this Agreement is October 1, 2016, through September 30, 2017.

Effective March 5, 2014, the District and County entered into an Interlocal Cooperation Agreement for Traffic Regulation in Special District. Under this Agreement, the County extends its traffic regulations to roads owned, operated and maintained by the District. The District agrees to pay the County an annual fee of \$100 under this Agreement, and the term of the Agreement is five years.
